

INTRODUZIONE

La Tromba è uno strumento a fiato (aerofono a bocchino) appartenente alla famiglia degli ottoni. Le principali caratteristiche della tromba che conosciamo oggi sono: un tubo, in parte cilindrico e in parte conico ripiegato su varie ritorte e tre pistoni, cioè tre valvole mediante le quali è possibile modificare la lunghezza del condotto acustico e quindi produrre tutti i suoni della scala cromatica.

La tromba è uno strumento molto duttile e squillante e può essere utilizzato sia come solista sia in orchestra, e si può adattare alle più svariate esigenze di repertorio.

Esistono diversi tipi di trombe, accordate in vari toni: Sib, Do, Re, Mib, Fa ecc. Il presente testo è stato concepito particolarmente per la Tromba in SIb.

Il suono della Tromba è squillante e melodioso.

La tromba nell'antichità

La tromba è uno strumento usato fin dall'antichità soprattutto in ceremonie rituali e militari proprio per il suo suono squillante.

Conosciamo la *hasosra* ebraica, la *tuba* romana, la *salpinx* greca e la *buccina* medievale.

Alla fine del XIV secolo compaiono i primi modelli di tromba curvati

Il termine "tromba" (trompas o trombas) per definire strumenti simili alla tromba compare per la prima volta tra il XII e XIII secolo.

Nel XVII secolo la tromba viene impiegata sempre più nella musica strumentale e operistica. Nel 1607 il Monteverdi nella sua "Toccata" per il melodramma "Orfeo" prevede un complesso strumentale con 5 trombe.

Anche i più grandi compositori dell'età Barocca scrissero composizioni per questo strumento (Gabrieli, Corelli, Bach, Vivaldi, Albinoni ecc.).

I primi trattati didattici per tromba risalgono XVII secolo e sono: "Tutta l'arte della trombetta" del 1614 scritto dal veronese Cesare Bendinelli e "Modo per imparar a suonare di tromba" del 1638 di Girolamo Fantini.

La tromba a pistoni

La fortuna della tromba giunse al suo apice **dopo il 1815**, quando, dopo alcuni tentativi, rivelatisi inefficaci, di far produrre alla tromba naturale tutti i suoni (con prolunghe del canneggio, chiavi come nei legni o per mezzo di sordine), **il cornista Stolzel inventò il moderno sistema dei pistoni**.

Realizzata dal costruttore di strumenti **Bluhmel**, nel 1818, la tromba a pistoni accrebbe le possibilità di utilizzo dello strumento e, con le nuove possibilità che le vennero fornite, il suo repertorio si estese a tutti i campi della musica.

Il suo ruolo, nelle orchestre di tutti i tipi, è fondamentale. Attualmente l'**orchestra sinfonica** possiede **tre trombe**, che, aggiungendosi a **tre tromboni, quattro corni e un basso tuba**, costituiscono il nucleo più sonoro e squillante di tutta l'orchestra.

INTRODUCTION

The trumpet is a wind instrument (aerophone with mouthpiece) belonging to the brass family. The main characteristics of the modern trumpet are: a hollow tube (part cylindrical and part conical, doubled back) and three piston valves, i.e. three valves that let you change the length of the sound-producing tube and therefore produce all the notes of the chromatic scale.

The trumpet is a very flexible and shrill instrument that can be played both as a solo and in an orchestra. It can be adapted to suit a wide repertoire.

There are various kinds of trumpet, in different keys: B flat, C, D, E flat, F etc. This text has been realised for the trumpet in B flat in particular.

The sound of the trumpet is shrill and melodious.

The trumpet in ancient times

The trumpet is an instrument used since ancient times, above all in ritual and military ceremonies, precisely because of its shrill sound.

We know of the Hebraic *hasosra*, the Roman *tuba*, the Greek *salpinx* and the medieval *buccina*.

The first models of curved trumpet appeared at the end of the 14th Century.

The term "trumpet" (*trompas* or *trombas*) used to define instruments similar to the trumpet appeared for the first time between the 12th and the 13th Centuries.

In the 17th Century the trumpet became increasingly used in instrumental and operatic music. In 1607, in his "Toccata" for the melodrama "Orfeo", Monteverdi included an instrumental section with five trumpets.

The greatest composers of the Baroque age also wrote compositions for this instrument (Gabrieli, Corelli, Bach, Vivaldi, Albinoni etc.).

The first teaching works for the trumpet date from the 17th Century and are: "All the Art of the Trombetta" by Cesare Bendinelli of Verona in 1614 and "How to Play the Trumpet" by Girolamo Fantini in 1638.

The valve trumpet

The success of the trumpet peaked **after 1815**, when, after a few unsuccessful attempts to make the natural trumpet produce all the notes (with tube extensions, keys as in woodwind instruments or mutes), **the horn player Stolzel invented the modern systems of piston valves**.

Created by the instrument maker **Bluhmel in 1818**, the valve trumpet increased the possible uses of this instrument and so, thanks to these new applications, its repertoire extended to cover all fields of music.

The trumpet plays a fundamental role in all kinds of orchestra. At the moment, the symphonic orchestra has **three trumpets that, together with three trombones, four horns and a bass tuba**, form the loudest and shrillest section in the whole orchestra.

Il suono di questo strumento è di fondamentale importanza anche nel **jazz** e nella **musica leggera**.

Il primo compositore che sfruttò le potenzialità della tromba fu, con ogni probabilità, L.van Beethoven.

I pistoni

Il meccanismo della Tromba moderna è costituito da tre pistoni, con l'utilizzo dei quali si possono ottenere tutti i suoni della scala cromatica.

La Tromba si sostiene con la **mano sinistra**, in posizione leggermente inclinata verso il basso.

La **mano destra**, col pollice sostiene la canna inferiore, mentre il **2°, 3° e 4° dito premono sui tasti dei pistoni** per poterli abbassare.

Il primo pistone è quello più vicino all'imboccatura e si abbassa tramite il **dito indice della mano destra**.

Il secondo pistone (posizione centrale) si abbassa con il **dito medio destro** mentre **il terzo** (quello più vicino alla campana) si abbassa con **l'anulare destro**.

Le note si possono ottenere **senza premere i pistoni** (note naturali), o **abbassandoli in varie combinazioni** (singolarmente, due a due o tutti contemporaneamente).

Lo spartito della tromba

Gli spartiti per tromba si scrivono **in chiave di violino** ma, essendo il canneggio dello strumento tagliato nella tonalità di Sib, la tromba emette i suoni **un tono sotto a quelli scritti**. Per questo motivo, se con la tromba si vuole suonare uno spartito nella stessa tonalità degli altri strumenti in Do, le soluzioni sono due: o si trasporta il tutto **nella chiave di tenore**, con il necessario spostamento d'accidenti sia nell'armatura della chiave, sia nelle note accidentate con alterazione transitorie, oppure si legge lo spartito in **chiave di violino, già trasportato** un tono sopra rispetto a quello degli strumenti in Do. Quando nel corso di questo metodo si trovano **indicate contemporaneamente due diverse tonalità**, la prima si riferisce a quella corrispondente alle note scritte; la seconda, fra parentesi, a quella risultante dall'effetto tonale.

L'impostazione

Come regola generale il bocchino va posto **a metà della bocca** e appoggiato **prevalentemente sul labbro superiore**.

Per produrre il suono con la tromba non basta immettere aria nello strumento ma è necessario, al momento dell'espirazione, **far vibrare le labbra** (produzione del suono "buzz" simile ad un ronzio).

Il bocchino

Il bocchino, specialmente nelle prime fasi dell'impostazione, dovrebbe essere di **media grandezza**.

Un'imboccatura troppo piccola o troppo grande penalizzerebbe notevolmente questa delicatissima fase.

The sound of this instrument is also crucial in jazz and light music.

The first composer to exploit the potential of the trumpet was in all probability, L. van Beethoven.

The valves

The mechanism of the modern trumpet consists of three piston valves that let you produce all the notes in the chromatic scale.

The trumpet is held in the **left hand**, facing slightly downwards.

The **right hand** (the thumb) supports the lower tube, while the **2nd, 3rd and 4th fingers on the right hand press on the keys on the valves**.

The first valve is the one closest to the mouthpiece and is pressed by the **index finger**.

The second valve (central position) is pressed by the **middle finger** while **the third** (the one nearest the flared bell) is pressed by the **ring finger**.

Notes can be obtained **without pressing the valves** (natural notes) or **by pressing them in various combinations** (singularly, or two at a time, or all together).

The trumpet score

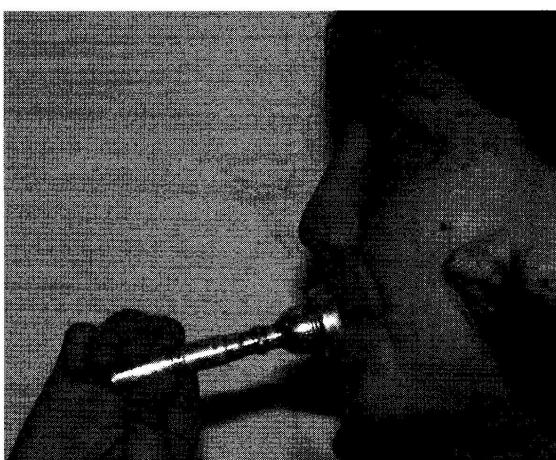

Trumpet scores are written in **treble clef**, but given that the tube of the instrument is cut in the tone of B flat, the trumpet will emit notes one tone below that written. For this reason, if you want to play on the trumpet a piece written in C clef in the same tone as the other instruments, you have two possible options: either you transpose the score to **tenor clef**, with the necessary change of key signature and relative shift of alterations, or you read the score in **violin key**, already moved one tone up compared to that for instruments in C.

In this method, when you find **two different tones indicated at the same time**, the first refers to the written notes and the second (in brackets) is the result of the tonal effect.

Embrochure

As a general rule the mouthpiece is placed **in the middle of the mouth** and rests mostly on the upper lip.

To produce sound with the trumpet, blowing air into the instrument is not enough: you also need to vibrate your lips (producing a "buzz" or hum).

The mouthpiece

The cup-shaped mouthpiece, especially in the first stages of embrocature, should be **medium size**.

If too small or too big, the mouthpiece can significantly penalise this delicate phase.

Il colpo di lingua

Tramite la **tecnica del colpo di lingua** l'esecutore di tromba imparerà ad emettere suoni con grande precisione e purezza.

Per produrre un **buon attacco del suono** (*colpo di lingua*) si può pensare di avere sulla punta della lingua un granellino di sabbia e di doverlo espellere, producendo la sillaba "tu" (assicurandosi però di non far uscire la lingua dai denti). Quando il risultato ottenuto sarà soddisfacente si potrà continuare a soffiare aria nel bocchino in maniera costante, come per spegnere delle candele accese alla distanza di circa un metro da noi.

La respirazione

Il suonatore di strumenti a fiato deve porre la massima attenzione al modo di **controllare e utilizzare la sua respirazione**. In condizioni normali una persona compie un atto respiratorio completo (inspirazione ed espirazione) circa 18 volte in un minuto (poco più di 3 secondi per atto).

Il tempo dell'espirazione e quello dell'inspirazione non sono uguali, in quanto l'espirazione è sempre un po' più lunga dell'inspirazione.

Per il suonatore di tromba la **durata dell'espirazione** deve essere **di gran lunga superiore a quella dell'inspirazione**, in modo che possa eseguire, con un solo fiato, parti consistenti di un brano musicale, rendendone perfettamente il fraseggio voluto dal Compositore.

Il suonatore deve perciò essere celere e prodigo nell'inspirazione, e moderato ed avaro nell'espirazione.

La **respirazione diaframmatica** è il tipo di respirazione più idonea per cantanti ed esecutori di strumenti a fiato. Il **diaframma** (muscolo che separa gli organi del torace da quelli dell'addome) **durante l'inspirazione si distende verso il basso**, aumentando la capacità polmonare, mentre nella fase della **espirazione si contrae**, favorendo la giusta pressione del fiato verso il bocchino dello strumento.

E' consigliabile comunque, per un suonatore principiante, non pretendere subito una lunga espirazione, ma conquistarla poco a poco, con tempo ed esercizio costante.

Consigli pratici

Al termine di questa breve introduzione sulla tromba, diamo alcuni consigli pratici agli allievi che vogliono iniziare lo studio.

- L'alunno cercherà di produrre, fin dall'inizio, un suono lineare e uniforme.
- È opportuno esercitarsi in piedi, in quanto questa posizione favorisce il corretto posizionamento del diaframma e dei muscoli intercostali.
- Ogni suono dovrà essere attaccato tramite il colpo di lingua e sostenuto per tutto il suo valore.
- Se alcune note risultassero crescenti o calanti, si dovrà cercare fin da principio e senza indugio di correggerne l'intonazione.
- Se le labbra dovessero essere stanche conviene fermarsi e lasciarle riposare. Non è saggio esercitarsi quando le labbra sono stanche.

Tonguing

With the **technique of tonguing**, the trumpet player learns how to emit sounds with great precision and purity.

To produce a **good sharp sound** (*tonguing*), you should imagine you've got a grain of sand on the tip of your tongue that you want to spit out, producing the syllable "tu" (being careful to not extend the tongue beyond your teeth).

Once you get a satisfactory result, you can continue to blow a constant stream of air into the mouthpiece, as if blowing out a burning candle at a distance of about one metre.

Breathing

A wind instrument player must be very precise **with the control and use of his breath**. In normal conditions, a person completes a full breathing cycle (inhaling and exhaling) about 18 times a minute (just over 3 seconds a cycle).

The length of inhalation and exhalation are not the same, given that exhalation always takes a little bit longer than inhalation.

For a trumpet player, the **length of the exhalation** must be **much longer than the inhalation**, in order to be able to perform a decent part of a musical tune with a single breath, as indicated by the composer.

The player must therefore be swift and expansive when breathing in, moderate and economical when breathing out.

Diaphragm breathing is the most suitable type of breathing for singers and wind instrument players. The **diaphragm** (the muscle which separates the chest and abdominal organs) **extends downwards when breathing in**, thus increasing lung capacity, while it **contracts** when breathing out, thus promoting the correct breath pressure on the instrument mouthpiece.

It is therefore advisable, for a novice player, not to expect to achieve long exhalation straight away, but to acquire this skill little by little with time and constant practice.

Practical tips

At the end of this short introduction to the trumpet, here are some practical tips for novices.

- The student should try to produce a linear and uniform sound, right from the start.
- It's best to practise while standing, as this position encourages the correct positioning of the diaphragm and rib muscles.
- Every sound should be hit by tonguing and maintained for its entire value.
- If some notes should rise or fall, you should try correcting the intonation right from the beginning and without losing any time.
- If your lips get tired, it's best to stop and give them a rest. It's not wise to practise when the lips are tired.

- I primi esercizi di questo metodo sono molto brevi poi, un po' alla volta, la lunghezza aumenta. Questo consentirà alle labbra di rinforzarsi gradualmente.
- Non si dovrà mai premere, per nessun motivo, il bocchino sulle labbra. Per raggiungere il registro acuto si utilizzerà solo una maggior compressione dell'aria che verrà immessa all'interno dello strumento.
- È importante cercare di immettere nello strumento, durante l'esecuzione, meno saliva possibile. Infatti la saliva, insieme all'aria vibrata nello strumento, rende il suono gracchiante, tremulo ed imperfetto, e sebbene non si possa evitarne la presenza, non bisogna tralasciare nulla per diminuirne la quantità.
- Nei momenti di inspirazione (per i quali è indispensabile aprire le parti laterali delle labbra) occorre non perdere la posizione delle labbra stesse sul bocchino.
- Gli zeri posti sopra le note le "posizioni a vuoto" indicano che quel determinato suono lo si otterrà senza l'ausilio dei pistoni.
- La virgoletta (,) indica il punto esatto in cui si dovrà prendere fiato
- The first exercises in this method are very short, but gradually get longer. This will allow your lips to strengthen progressively.
- You should never, for any reason, press the mouthpiece against the lips. To reach the sharp register, simply increase the air compression sent inside the instrument.
- It's important to emit as little saliva as possible while playing the instrument. In fact saliva, together with the air vibrated in the instrument, produces a grating, shaky and imperfect sound. While you can't avoid the presence of saliva, you should do everything you can to minimise it.
- On breathing in (when you can't avoid opening the sides of your mouth), it's crucial that you don't lose the position of your lips on the mouthpiece.
- The zeros placed above the notes (the "empty positions") mean that that particular sound can be got without using the valves.
- The comma (,) indicates the exact point where you should breathe.

L'altezza delle note viene così citata:

Pitches are referred to as follows:

A musical staff with two measures. The first measure starts with a bass clef, followed by a note labeled 'do¹' with a zero above it. This is followed by 'si¹', 'do²', 'si²', and a rest. The second measure starts with a treble clef, followed by 'do³', 'si³', 'do⁴', 'si⁴', and 'do⁵'. Below the staff, the notes are labeled with their corresponding letter names: 'C', 'B', 'c', 'b', 'c'', 'b'', 'c''', and 'c''''. There are also small arrows pointing from the notes to the letter labels.

Nel CD allegato l'allievo potrà trovare le basi pianistiche relative agli esercizi che nel metodo sono anticipati dal

The enclosed CD contains the piano bases for the exercises.

These are shown in the method by symbol

UNITÀ 2 - Esercizi scaleggiati**Tonalità di Do Maggiore (Sib Magg)**

Gli esercizi sottostanti possono essere eseguiti sia partendo dalla lettera “A” sia partendo dalla lettera “B” (esecuzione A-B oppure B-A). Questo consentirà all’alunno di abituarsi a suonare partendo da vari registri.

I puntini posti sopra alcune battute indicano quali note possono (a discrezione dell’insegnante) essere omesse dagli alunni che non hanno maturato a sufficienza la loro muscolatura labiale.

UNIT 2 - Scale exercises
Key C Major (B flat Maj)

The exercises below can be performed starting not only from the letter “A” but also from the letter “B” (performance A-B or else B-A). This will permit the pupil to get used to playing starting from various registers.

The points placed above some beats indicate which notes can (at the teachers discretion) be omitted by the pupils who have not yet developed their lip muscle enough.

The image shows three staves of sheet music, each consisting of five lines. The first staff begins at measure 6, the second at measure 8, and the third at measure 15. Each staff is divided into two sections: section A (measures 6-14) and section B (measures 15-22). The music is written in common time with a treble clef. Measures 6-14 feature eighth-note patterns, while measures 15-22 feature sixteenth-note patterns. Measure numbers 7, 8, 17, 9, 14, and 21 are also present.

Track 5 

Base

Suona / Play

This musical score consists of eight staves of music for a base instrument. The first staff shows measures 1-6, with measure 6 ending with a repeat sign. Measures 7-12 follow, then a section from measure 15 to 23. Measures 24-32 conclude the piece. The music is in common time (indicated by '3') and uses a treble clef.

Track 6 

Base

Suona / Play

This musical score consists of ten staves of music for a base instrument. The first staff shows measures 1-6, followed by a section from measure 7 to 13. Measures 14-20 are shown, then a section from measure 21 to 27. Measures 28-34 follow, then a section from measure 35 to 41. Measures 42-48 are shown, then a section from measure 49 to 55. Measures 56-62 conclude the piece. The music is in common time (indicated by 'C') and uses a treble clef.

Track 7 

Base

Suona / Play

This musical score consists of twelve staves of music for a base instrument. The first staff shows measures 1-6, followed by a section from measure 7 to 13. Measures 14-20 are shown, then a section from measure 21 to 27. Measures 28-34 are shown, then a section from measure 35 to 41. Measures 42-48 are shown, then a section from measure 49 to 55. Measures 56-62 are shown, then a section from measure 63 to 69. Measures 70-76 are shown, then a section from measure 77 to 83. Measures 84-90 are shown, then a section from measure 91 to 92. The music is in common time (indicated by '3') and uses a treble clef.

UNITÀ 1 - Esercizi a squillo

Estensione Do₃ – Mi₄ (Si♭₂ – Re₄)

Gli “esercizi a squillo” che seguono vanno eseguiti con un’**intensità** di suono forte.

L’**intensità** dipende dalla forza con la quale un suono viene emesso e corrisponde al suo **volume**.

Per indicare l’intensità da attribuire ad un frammento musicale, ad un esercizio, ad un brano intero, il compositore utilizza le “**indicazioni dinamiche**” segnalate nello spartito tramite scritte abbreviate o semplici lettere.

INDICAZIONI DINAMICHE

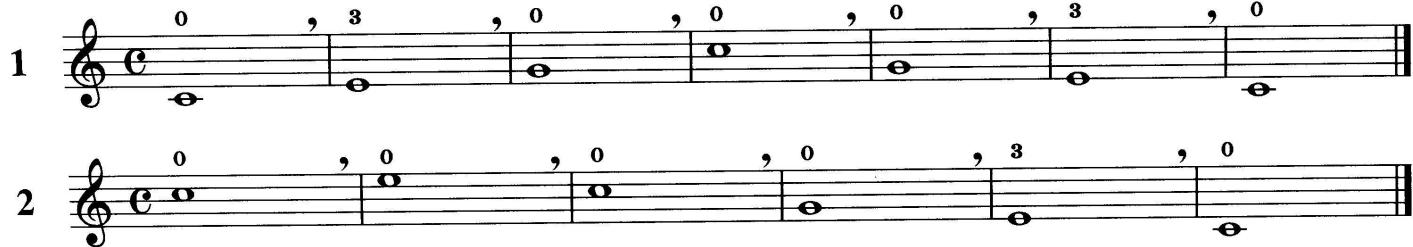

| | |
|------------|----------------------|
| ppp | = più che pianissimo |
| pp | = pianissimo |
| p | = piano |
| mp | = mezzo piano |
| mf | = mezzo forte |
| f | = forte |
| ff | = fortissimo |
| fff | = più che fortissimo |

Le espressioni dal piano al forte (*crescendo*) e viceversa dal forte al piano (*diminuendo*) vengono indicate sia con le abbreviazioni **cresc.** e **dim.** sia con le “**forcelle**”, segni che indicano appunto un cambio graduale di intensità.

UNITÀ 4 - Cromatismo

Nello schema sono rappresentati tutti i suoni della scala cromatica che, di norma, vengono eseguiti con la tromba. Ogni battuta dello schema rappresenta un suono che viene prima indicato con i *diesis* poi con i *bemolle*.

Esempio Fa♯ = Sol♭

I numeri riportati sopra le note indicano i pistoni che dovranno essere abbassati per produrre quella determinata nota.

Quando sono scritte numerazioni diverse significa che si può ottenere quella nota con due diteggiature diverse (la prima diteggiatura è quella consigliata, le altre sono diteggiature "di ripiego").

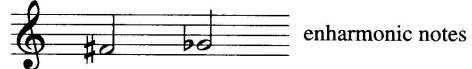

Scala ascendente (diesis) / Ascending scale (sharp)

Scala discendente (bemolle) / Descending scale (flat)

UNIT 4 - Chromatism

Shown in the diagram are all the sounds of the chromatic scale that are usually performed with the trumpet. Every beat of the diagram represents a sound that is first indicated with the *sharp* and then with the *flat*.

Example Fa♯ = G♭

The numbers shown above the notes indicate the keys that should be pressed to produce that particular note. When different numerations are written, it means that you can obtain that note with two different fingerings (the first fingering is the recommended one, the other fingerings are "fallbacks").

UNITÀ 5 - Flessibilità

Per ottenere benefici dallo **studio delle legature sui suoni armonici** (flessibilità) si dovrà passare **gradualmente da una nota all'altra** senza dare accenti alla nota legata e senza interrompere il suono. Se fra la prima e la seconda nota vi sarà assenza di suono anche solo per un istante (soffio) l'esercizio non sarà stato eseguito in modo corretto, quindi andrà ripetuto fino ad ottenere l'effetto desiderato.

Flessibilità sulla 1^a posizione / Flexibility on the 1st position
UNIT 5 - Flexibility

To obtain benefits from the **study of flexibility** one should pass **gradually from one note to another** without accent on the slurred note and without interrupting the sound. If between the first and second note there is an absence of sound even for only an instant (blow) the exercise will not have been carried out correctly, therefore should be repeated until the desire effect has been obtained.

UNITÀ 1 - Esercizi a squillo

Estensione Do₃ – Sol₄ (Sib₂ – Fa₄)

A musical score consisting of six staves, each in common time (indicated by '4'). The first staff (measures 1-2) consists of eighth notes with dynamic 'f' and grace marks. The second staff (measures 3-4) shows a transition with sixteenth-note patterns. The third staff (measures 5-6) continues the sixteenth-note patterns. The fourth staff (measures 7-8) features eighth-note patterns. The fifth staff (measures 9-10) includes eighth-note patterns and grace marks. The sixth staff (measures 11-12) concludes with eighth-note patterns.

The intervals (2)

UNITÀ 1 - Esercizi a squillo

UNIT 1 - Blare exercises

The sheet music for Unit 1 contains five staves of musical notation. Staff 1 starts with a treble clef, a '4' for 4/4 time, and a series of eighth-note patterns. Staff 2 begins with a repeat sign and continues the eighth-note patterns. Staff 3 features a bass clef and a similar pattern of eighth notes. Staff 4 starts with a treble clef and includes slurs and grace notes. Staff 5 concludes the unit with a treble clef and a final measure.

7

4

8

5

9

9

4

10

4

7

10

UNITÀ 2 - Il legato

Per ottenere il legato bisogna dare l'attacco sulla prima delle note legate e, sostenendo il suono con il fiato, raggiungere le altre, avendo cura di diminuire o aumentare la velocità e la quantità dell'aria che viene immessa nello strumento a seconda che il movimento melodico sia ascendente o discendente.

Esempi:

a) delle due note legate insieme si produrrà l'attacco nella prima e, sostenendo il fiato, si raggiungerà la seconda aumentando sensibilmente la velocità dell'aria che verrà immessa nello strumento.

b) nelle quattro note legate insieme, si darà l'attacco sulla prima e, sostenendo il fiato, si raggiungeranno gradualmente le altre, aumentando la velocità dell'aria che verrà immessa nello strumento.

UNIT 2 - The slur

To obtain the slur you need to attack on the first note of the slurred phrase and maintaining the sound with your breath, reach the others, being careful to diminish or increase the speed and the quantity of the air that's directed into the instrument according to whether the melodic movement is ascending or descending.

Examples:

a) with two notes together you will make the attack on the first and maintain your breath, while reaching the second by greatly increasing the velocity of the air that's directed into the instrument.

b) with four notes together, you will make the attack on the first and, maintain your breath, while gradually reaching the others, increasing the velocity of the air that's directed into the instrument.

5

9

5

6

6

7

6

8

6

9

4

10

4

UNITÀ 3 - Lo staccato

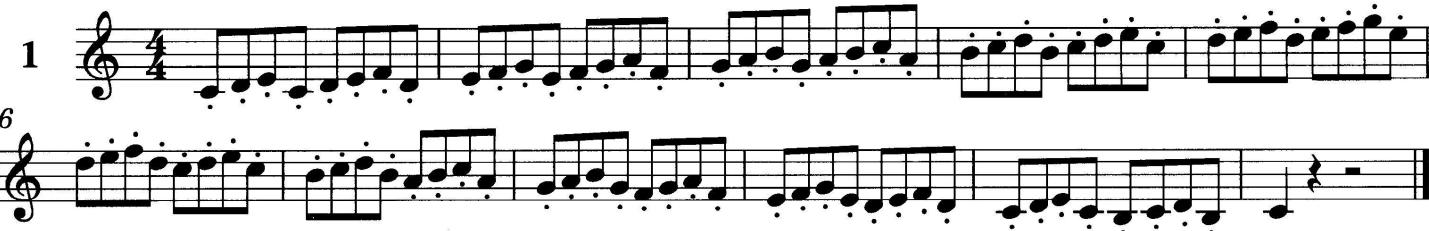

Per ottenere lo **staccato** occorre far vibrare l'aria nel bocchino per mezzo del colpo di lingua dato ad ogni nota, soprattutto quando la nota si trova contrassegnata da un puntino o dal simbolo ▼.

a) Il puntino (staccato vibrato) posto sopra o sotto alle note dell'esercizio n. 1 produce l'effetto:

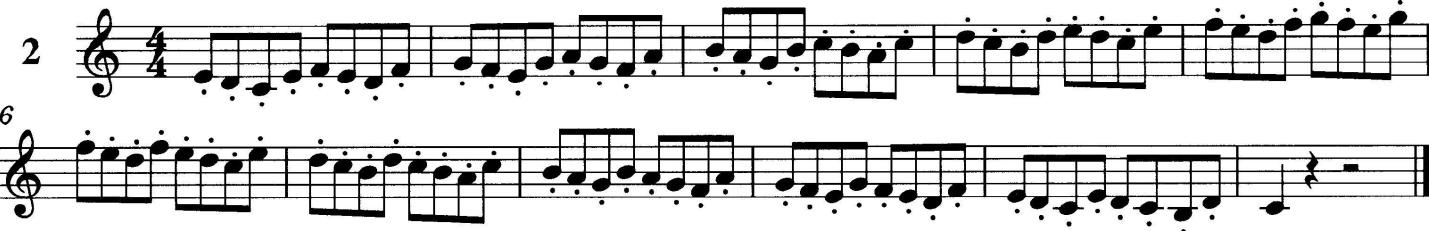

| Scrittura | Esecuzione |
|----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|
|  |  |

b) Il simbolo ▼ (staccato secco) posto sopra o sotto alle note dell'esercizio n. 3 produce l'effetto sotto descritto:

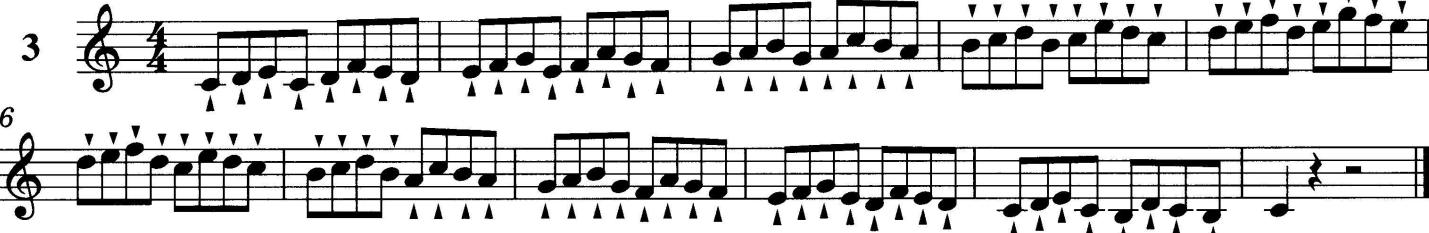

| Scrittura | Esecuzione |
|----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|
|  |  |

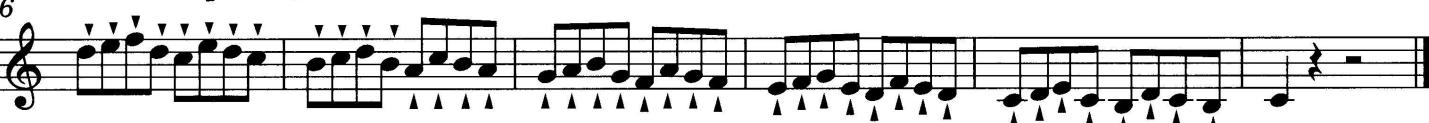

1 

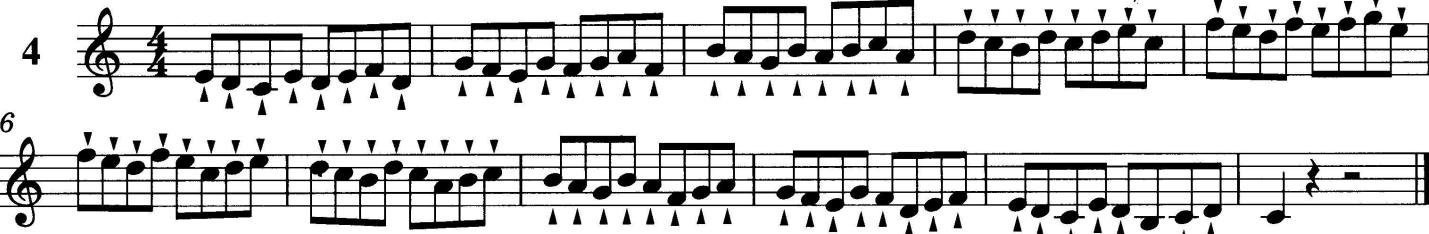

6 

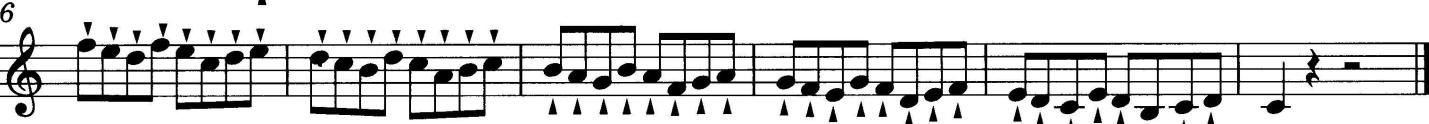

2 

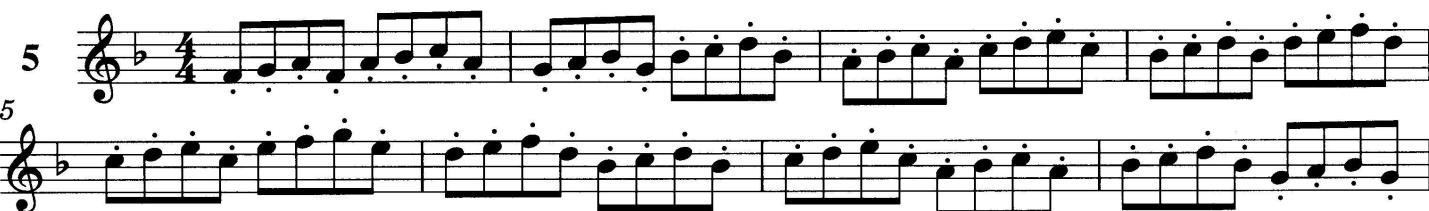

6 

3 

6 

4 

6 

5 

UNIT 3 - Detached notes

To obtain the **detached** you need to vibrate the air in the mouthpiece with the tongue strike given to every note, above all, when the note is marked by a point or by the symbol ▼.

a) The point placed above or under the notes of the exercise no. 1 produces the effect:

| Writing | Execution |
|------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|
|  |  |

b) The symbol ▼ placed above or under the notes of the exercise no. 3 produces the effect described below:

| Writing | Execution |
|------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|
|  |  |

14 4

15 3

16 3

17 4

18 4

UNITÀ 4 - Lo staccato legato

Lo staccato-legato (o suono portato), si ottiene tramite un colpo di lingua dolcissimo dato ad ogni nota, sostenendone però il valore fin quasi ad evitare l'impercettibile pausa necessaria all'articolazione fra un suono e l'altro.

UNIT 4 - The portamento

The portamento (or carrying the tone), is obtained by a light tongue strike given to every note, but holding the value until almost avoiding the imperceptible pause needed for the articulation between one sound and another.

UNITÀ 7 - Flessibilità**UNIT 7 - Flexibility**

The sheet music consists of 12 staves of musical notation for a single instrument. The notation is primarily in 4/4 time, with some sections in 3/4 time. The key signature varies throughout the piece. The music is divided into measures by vertical bar lines and includes measure numbers (e.g., 0, 2, 4, 12, 23, 13, 123) above the staff. Measure 1 starts with a dynamic *mf*. Measures 2 and 3 start with a dynamic *p*. Measures 4 starts with a dynamic *mf*. Measures 5 starts with a dynamic *p*. Measures 6 starts with a dynamic *mf*, followed by *pp* and *mf* dynamics. Measures 7 through 12 are mostly in 3/4 time. Measure 13 returns to 4/4 time. Measures 14 through 17 are mostly in 3/4 time. Measure 18 returns to 4/4 time. Measures 19 and 20 are mostly in 3/4 time.

UNITÀ 1 - Esercizi a squillo

UNIT 1 - Blare exercises

The sheet music consists of four staves of musical notation for trumpet or similar instrument. Staff 1 starts in 2/4 time, Staff 2 in 6/8 time, Staff 3 in 12/8 time, and Staff 4 in 3/4 time. Each staff contains six measures of music, with measure numbers 1, 6, and 12 indicated on the left side of each staff.

5 6 12

6 6

7 6 12

8 6

9 6

10 4 8

UNITÀ 2 - Le articolazioni**UNIT 2 - The articulations**

The musical score consists of 15 staves of piano music. The music is primarily in common time (indicated by a '4' in the top right corner of each staff). The key signature varies throughout the piece, with sections in C major (no sharps or flats), G major (one sharp), and D major (two sharps). The music features a variety of rhythmic patterns, including eighth-note and sixteenth-note groups, often separated by slurs. Grace notes are also present, particularly in the later staves. The staves are numbered 1 through 15 on the left side.

The musical score consists of eight staves of music for a single instrument, likely a woodwind or brass instrument. The music is in common time (indicated by '4'). The staves are numbered on the left side:

- Staff 6: Treble clef, key signature of one flat (B-flat). Measures 6-10.
- Staff 7: Treble clef, key signature of one sharp (F-sharp). Measures 7-11.
- Staff 8: Treble clef, key signature of one sharp (F-sharp). Measures 8-12.
- Staff 9: Treble clef, key signature of one sharp (F-sharp). Measures 9-13.
- Staff 10: Treble clef, key signature of one sharp (F-sharp). Measures 10-14.

The music features various articulations, including slurs, grace notes, and dynamic markings. The notation includes eighth and sixteenth note patterns, as well as quarter notes and half notes. The score is presented on five-line staff paper.

The musical score consists of five systems of music, each with three staves. The key signature changes from measure to measure. Measure 11 starts with a key signature of one sharp (F#), followed by measures with signatures of four, seven, and four. Measures 12 and 13 start with four, then seven, then four. Measures 14 and 15 start with four, then six, then four. Measures 11 and 12 have measure numbers 11 and 12 above them respectively. Measures 13, 14, and 15 have measure numbers 13, 14, and 15 above them respectively. Measure 15 has measure numbers 4, 7, and 9 below it. Measure 15 ends with a fermata over the last note.

The sheet music consists of five staves of musical notation for piano, arranged vertically. The first staff begins at measure 16, the second at measure 17, the third at measure 18, the fourth at measure 19, and the fifth at measure 20. Each staff uses a treble clef and a common time signature. Measures 16-19 feature sixteenth-note patterns with various slurs and grace notes. Measure 20 shows eighth-note patterns with slurs. Measures 16 and 17 include dynamic markings such as '3' over groups of notes. Measures 18 and 19 include dynamic markings like '3' and '6'. Measures 17, 18, and 20 conclude with a fermata followed by a repeat sign.

con brio

Musical score for piano, featuring four staves of music. Measure 40 starts with a dynamic *f*. Measure 46 includes dynamics *p* and *f*. Measure 51 features a dynamic *p*. Measure 56 ends with a fermata over the first note.

Allegro moderato

da / from Bona

Track 35
(Lento/Slow)

Track 36
(Veloce/Fast)

Base

Musical score for the base part, consisting of two staves in 2/4 time. The top staff is for Track 35 (Lento) and the bottom staff is for Track 36 (Veloce). Both staves feature eighth-note patterns with three groups of three, indicated by a '3' under each group.

9 Suona / Play

Musical score for piano, showing measure 9. The dynamic is *mf*.

16

Musical score for piano, showing measure 16. The dynamic is *p*.

The musical score consists of eight staves of music for two voices. The top staff is in treble clef and the bottom staff is in bass clef. The music is divided into measures by vertical bar lines. Various musical markings are present throughout the score:

- Measure 25:** Dynamics include *ben marcato*, *f*, and ***. Articulation marks like short vertical strokes are used.
- Measure 32:** Dynamics include *cresc.*
- Measure 39:** Dynamics include *p*.
- Measure 46:** Measures are grouped by large curved brackets above the notes.
- Measure 53:** Measures are grouped by large curved brackets above the notes. Articulation marks like short vertical strokes are used.
- Measure 59:** Measures are grouped by large curved brackets above the notes. Articulation marks like short vertical strokes are used. Measure numbers 3 are placed under several notes.
- Measure 65:** Measures are grouped by large curved brackets above the notes.

* Vedi abbellimenti p. 96-97 / See embellishments p. 96-97

The sheet music consists of eight staves of musical notation for piano, arranged vertically. The staves are in common time and use a treble clef for the top staff and a bass clef for the bottom staff.

- Staff 1 (Measures 72-73):** Features eighth-note patterns. Measure 72 ends with a dynamic *cresc.* Measure 73 begins with a dynamic *f*.
- Staff 2 (Measures 79-80):** Shows eighth-note patterns. Measure 79 ends with a dynamic *p*.
- Staff 3 (Measures 85-86):** Features eighth-note patterns. Measure 85 ends with a dynamic *p*.
- Staff 4 (Measures 91-92):** Shows eighth-note patterns. Measure 91 ends with a dynamic *f*, followed by a repeat sign and a dynamic *p*.
- Staff 5 (Measures 97-98):** Features eighth-note patterns. Measure 97 ends with a dynamic *p*.
- Staff 6 (Measures 103-104):** Shows eighth-note patterns. Measure 103 ends with a dynamic *p*.
- Staff 7 (Measures 108-109):** Features eighth-note patterns. Measure 108 ends with a dynamic *f e risoluto*.

Measure numbers are indicated at the beginning of each staff: 72, 79, 85, 91, 97, 103, and 108. Measure 109 is implied at the end of the final staff.

Mi min. (Re min.) / E min. (D min.)

Musical score for Mi min. (Re min.) / E min. (D min.) featuring three staves of melodic exercises. The first two staves are in 4/4 time, and the third staff begins in 4/4 time.

Andantino

da / from Rossari

Musical score for Andantino, starting at measure 11. The tempo is 6/8. The score consists of six staves, each with dynamic markings (p) and performance instructions (e.g., >). Measures 11 through 21 are shown.

Allegretto moderato

da / from Rossari

Musical score for Allegretto moderato, starting at measure 12. The tempo is 4/4. The score consists of nine staves, each with dynamic markings (p, f, cresc., decresc.) and performance instructions (e.g., leggero e staccato, >, >>). Measures 12 through 23 are shown.

Sib Magg. (Lab Magg.) / Bb Maj (Ab Maj)

Three staves of musical notation in 4/4 time, key signature of one flat (B-flat). The first two staves consist of eighth-note patterns. The third staff consists of sixteenth-note patterns.

Adagio cantabile

da / from Beethoven

Ten staves of musical notation in 3/8 time, key signature of one flat (B-flat). The dynamics include *dolce*, *mf*, *p*, *mf*, *f*, *lento*, and *D.C. al Fine*. The score concludes with a *Fine*.

Allegro marziale

da / from Rossari

Ten staves of musical notation in 4/4 time, key signature of one flat (B-flat). The dynamics include *f deciso*, *p*, *f*, *p*, *p*, *cresc.*, *f*, *p*, *f*, *p*, and *f*. The score concludes with a *p*.

Sol min. (Fa min.) / G min. (F min.)

Musical score for Sol min. (Fa min.) / G min. (F min.) starting at measure 12. The score consists of three staves of music for a single instrument.

Larghetto cantabile

da / from Mozart

Musical score for Larghetto cantabile starting at measure 15. The score consists of six staves of music for a single instrument. Measure 15 starts with *mf*. Measures 18 and 20 start with *p*.

da / from Mariani

Musical score for da / from Mariani starting at measure 16. The score consists of seven staves of music for a single instrument. Measures 16, 18, and 20 start with *f*. Measures 17, 19, and 21 start with *p*.

Re Magg. (Do Magg.) / D Maj (C Maj)

Three staves of musical notation in 4/4 time, key of D major (two sharps). The first two staves consist of eighth-note patterns. The third staff begins with a sixteenth-note pattern.

Andantino

da / from Haydn

Ten staves of musical notation in 3/4 time, key of D major (two sharps). Measure numbers 17, 20, 25, and 32 are indicated. Dynamic markings include *p*, *rall.*, *a tempo*, and *poco rall.*

Tempo di Polonese

da / from Gonella

Nine staves of musical notation in 3/4 time, key of D major (two sharps). Measure numbers 18, 21, 25, and 32 are indicated. Dynamic marking *p* is present in the first staff. The score concludes with a repeat sign and endings 1. and 2.

Si min. (La min.) / B min. (A min.)

Three staves of musical notation in 4/4 time with two sharps. The first two staves show eighth-note patterns, while the third staff shows sixteenth-note patterns.

La Magg. (Sol Magg.) / A Maj (G Maj)

Musical score for 'La Magg. (Sol Magg.) / A Maj (G Maj)' showing measures 23 to 12. The key signature is G major (one sharp). The music consists of three staves of sixteenth-note patterns.

Andante espressivo

da / from Mendelssohn

Musical score for 'Andante espressivo' (da / from Mendelssohn) showing measure 25. The key signature is G major. The instruction 'dolce' is written below the staff.

Musical score for 'Andante espressivo' (da / from Mendelssohn) showing measure 9. The key signature is G major.

Musical score for 'Andante espressivo' (da / from Mendelssohn) showing measure 17. The key signature is G major. Dynamics 'mf' and 'dim.' are indicated.

Musical score for 'Andante espressivo' (da / from Mendelssohn) showing measure 24. The key signature is G major. Dynamics 'rall.' and 'a tempo' are indicated.

Musical score for 'Andante espressivo' (da / from Mendelssohn) showing measure 32. The key signature is G major. Dynamics 'rall.' and 'p' are indicated.

Allegro moderato

da / from De-Vasini

Musical score for 'Allegro moderato' (da / from De-Vasini) showing measure 26. The key signature is G major. Dynamics 'f' and 'p' are indicated.

Musical score for 'Allegro moderato' (da / from De-Vasini) showing measure 7. The key signature is G major. Dynamics 'f' are indicated.

Musical score for 'Allegro moderato' (da / from De-Vasini) showing measure 12. The key signature is G major. Dynamics 'f' are indicated.

Musical score for 'Allegro moderato' (da / from De-Vasini) showing measure 16. The key signature is G major. Dynamics 'f' and 'p' are indicated.

Musical score for 'Allegro moderato' (da / from De-Vasini) showing measure 21. The key signature is G major. Measures are grouped by '3' over three measures.

Musical score for 'Allegro moderato' (da / from De-Vasini) showing measure 26. The key signature is G major. Measures are grouped by '3' over three measures.

Fa♯ min. (Mi min.) / F♯ min. (E min.) 23

Musical score for Fa♯ min. (Mi min.) / F♯ min. (E min.) starting at measure 23. The score consists of three staves of music in 4/4 time, key signature of two sharps. The first staff starts with a dotted half note followed by eighth notes. The second staff starts with eighth notes. The third staff starts with sixteenth notes. Measure numbers 23, 24, and 25 are indicated above the staves.

Allegretto

da / from Frosali

Musical score for Allegretto starting at measure 27. The score consists of five staves of music in 3/4 time, key signature of two sharps. Measure numbers 27, 28, 29, 30, 31, 32, and 33 are indicated above the staves. Dynamics include *mf, f, mf, cresc., ff, and f.

Vivace

da / from Ficini

Musical score for Vivace starting at measure 28. The score consists of six staves of music in 8/8 time, key signature of two sharps. Measure numbers 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, and 43 are indicated above the staves. Dynamics include p, cresc., and f.

UNITÀ 3 - Flessibilità**UNIT 3 - Flexibility**

The sheet music consists of 15 staves of musical notation for a single instrument. The music is divided into sections by measure numbers: 0, 2, 10, 12, 20, 23, 13, 123, 2, 8, 16, 3, 8, 15, 4, 11, 21, and 33. The notation includes various dynamics such as *mf*, *p*, *f*, *mp*, and *mf*. Time signatures change frequently, including 4/4 and 3/4. Key changes are also present, indicated by sharps and flats. The music features slurs, grace notes, and other performance techniques typical of woodwind or brass instrument music.

Cenni sugli abbellimenti musicali

Scheda di raccordo fra questo volume e i volumi II e III del Metodo Gatti - *revisione Giampieri*

Nel secondo e nel terzo volume del metodo per Tromba di D. Gatti (revisione Giampieri) sono riportati tutti gli abbellimenti musicali supportati da diversi esercizi per la loro acquisizione.

Per dare la possibilità agli alunni di eseguire fin d'ora gli abbellimenti ritengo opportuno, alla fine di questo volume dare alcune brevi spiegazioni sulla loro esecuzione.

• L'Appoggiatura

L'appoggiatura è una piccola nota (nota *ausiliaria* scritta con carattere più piccolo) rappresentata accanto ad una *nota reale* (nota scritta a grandezza normale), situata generalmente **un grado sopra o sotto di essa**. L'appoggiatura **sottrae** alla nota reale il valore della figura che rappresenta.

si scrive
written

si esegue
played

• L'Acciaccatura (semplice, composta)

L'acciaccatura è una piccola nota ausiliaria munita di un **taglietto** (se semplice) o un **insieme di piccole note** con o senza taglietto (se composta), messa sopra o sotto la nota reale. Viene eseguita con molta rapidità.

Può essere suonata in **battere o in levare**, e il modo di esecuzione e la sua velocità variano a seconda dello stile e dell'Autore.

written

si esegue
played

• Il Mordente (superiore, inferiore, doppio)

Il mordente, può essere **semplice superiore (~~)**, **semplice inferiore (~~)**, **doppio superiore (~~~)**, **doppio inferiore (~~~)**. A differenza dell'acciaccatura, che può essere eseguita in battere o in levare, la prima nota del mordente si esegue **sempre in battere** (vedi esempi sottostanti).

Hints on embellisgment

Chart of connections between this volume and volume II and III of the Method Gatti - *edited by Giampieri*.

Listed in the second and third volume of the method for Trumpet by D. Gatti (edited by Giampieri) are all the musical embellishment supported by the various related exercises.

To give the pupils the possibility of carrying out immediately the embellishment I think it's a good idea to give some short explanations about their execution, at the end of this volume.

• The grace note

The grace note is a **small note** (*auxiliary note* written with smaller characters) shown beside a real note (a note written in normal size), generally positioned **one degree above or below it**. The grace note subtracts from the real note the value of the signs it represents.

• The sort grace note (simple, compound)

The **sort grace note** is a small *auxiliary note* equipped with a dash (if simple) or a **collection of small notes** with or without dash (if compound), placed above or below the real note. It is carried out very quickly.

It can be played in **downbeat or in upbeat**, and the way it's executed and its velocity vary according to the style and author.

• The Mordent (higher, lower, double)

The **mordent**, can be **simple higher (~~)**, **simple lower (~~)**, **double higher (~~~)**, **double lower (~~~)**.

Depending on the sort grace note, it can be carried out in downbeat or in upbeat, the first note of the mordent is **always** carried out in downbeat (see examples below).

• Il Gruppetto

Analogamente al mordente anche il **gruppetto** può essere **superiore** () o **inferiore** ().

La sua modalità di esecuzione è più complessa di quella degli altri abbellimenti, in quanto dipende dalla posizione in cui è inserito all'interno di una battuta.

Il gruppetto si dice **diretto** se è posto sopra o sotto una nota, **indiretto** se si trova tra due note.

Ecco, qui sotto, alcune modalità di esecuzione più comunemente utilizzate per alcuni tipi di gruppetto diretto e indiretto.

si scrive
written

si esegue
played

oppure 5

Nei casi di **gruppetto indiretto tra due note**, i suoni che lo costituiscono si pongono di norma alla fine (sul levare) dell'ultimo movimento intero della nota reale.

Per esempio:

si scrive
written

si esegue
played

• Il Trillo

Il trillo si rappresenta graficamente in questo modo: “**tr**” e consiste nell’alternare continuamente, con una certa rapidità, la **nota reale con la sua superiore**. In linea di massima il trillo **termina sempre con la nota reale**.

La velocità di esecuzione del trillo dipende dall’epoca e dall’Autore che lo ha utilizzato.

si scrive
written

si esegue
played

oppure

• Considerazione finale sugli abbellimenti

Data la complessità di questo argomento e la soggettività di esecuzione dei vari abbellimenti, ogni insegnante sceglierà la modalità di esecuzione e la risoluzione dei singoli abbellimenti.

• The Turn

The **turn** just like the mordent can also be **higher** () or **lower** ().

Its form of execution is more complex than the other embellishment, in that it depends on the position in which it is inserted inside a bar.

The turn is called **direct** if it is placed above or below a note, **indirect** if it is between two notes.

Below are, some of the execution forms most generally used for some kinds of direct and indirect turns.

In the case of the indirect **turn between two notes**, the sounds that make it up are usually at the end (on the upbeat) of the last complete movement of the real note. For example:

• The Trill

The trill is shown graphically like this: “**tr**” and consists in continuously altering quickly, **the real note with its higher**. Generally speaking the trill **always ends the real note**.

The speed of execution of the trill depends on the historic age of the Author who used it.

• Final considerations on embellishments

Given the complexity of this subject and the subjectivity of the various ornaments, every teacher will choose the form of execution and the resolution of the single embellishments.
